Superintendent McLaren and other attaches of the park declare that for several hours the walks of the big pleasure grounds were covered with a wriggling mass of snakes. After the downpour of snakes they disappeared in the slush and mud. Secretary Healy, in describing the ophidian precipitation, said: "We thought at first that they were worms or fish, but on inspection saw that they were really snakes,

Democrats Will Figure Largely in Census Taking.

(Special to The Times-Dispatch.)

WASHINGTON. January 27.—The South will fare better than heretofore in the appointment of census supervisors and enumerators to take the cansus of 1910 than it has heretofore done. The supervisors, one to a congressional district, will be half Democrats and half Republicans, as a rule, and in some instances Democrats will predominate. For instance, Virginia will have ten supervisors, on salaries of \$1,500 per year, and five will be selected from the Democratic and five from the Republican forces.

The supervisors will be appointed in August or September, but the enumerators will not be named until the spring and their employment will continue for about thirty days, and their pay will be per head and per farm.
